

MONARCH WATER

Flow Rates and Pressure Drops through Ultimate and GS models

At 1 bar pressure drop

Mini Aqua multiply flow rate by 0.916 to get lpm i.e 1 bar PD equals $4100 / 60 \times 0.916 = 61$

Midi Ultimate multiply flow rate by 0.872 to get lpm

Master Ultimate multiply flow rate by 0.817 to get lpm

GS6000 multiply flow rate by 0.772 to get lpm
